

# 3Shape TRIOS Orthodontics

Engage and excite your patients

# Create patient excitement with 3Shape TRIOS Orthodontics

3Shape TRIOS® allows you to enhance patient experience with exciting engagement tools, reduce chair-time and embrace new treatment opportunities.

TRIOS is an open and widely integrated solution that gives you unrestricted production possibilities for a vast range of orthodontic indications, and cost-saving workflows.

TRIOS provides a range of powerful apps and continuous software upgrades to ensure that your practice stays ahead as your business grows stronger.

## 5 ways digital impressions will boost your business<sup>1</sup>

Improve patient experience

Get digital accuracy and limit manual errors

Enjoy easy impression taking and reduce retakes

Save time and see more patients

Save on impression materials and shipping and storage costs

# Why 3Shape TRIOS?

## Give a great treatment experience

Excite patients by bringing digital impressions and treatments to life

## Get more open options

Choose lab or in-house production, with access to an unrivalled ecosystem

## Grow your practice

Advance case acceptance, expand your offer and boost profitability

Read more about why orthodontists and patients prefer TRIOS at [3shape.com/orthodontist](https://3shape.com/orthodontist)

# Give a great treatment experience with superior scanning technology

3Shape TRIOS® excellence is recognized by multiple leading industry honors, including five consecutive Cellerant Best of Class Technology Awards.

## Enhance comfort with wireless innovation

TRIOS is the world's first intraoral scanner to offer a wireless option. TRIOS Wireless gives you the freedom to perform digital scans unrestricted by wires, optimizing comfort for both you and your patients.

## Engage patients with 3Shape TRIOS Treatment Simulator\* in realistic color

Show patients the envisioned results of their treatment onscreen, in full-color. Works with all 3Shape integrated orthodontic solution brands.

## Documented accuracy for analysis and patient monitoring

TRIOS documented high-accuracy on full-arch scans enables precision analysis and ongoing monitoring of patients' dental status using the 3Shape TRIOS Patient Monitoring\* application.

## Capture occlusion and dynamic occlusion with 3Shape TRIOS Patient Specific Motion

Accurately capture your patient's bite automatically in real-time, while you scan, and use TRIOS Patient Specific Motion\* to record a series of different bite positions, highlight occlusal contacts, and get a better understanding about case possibilities.

# Get more open options

One solution for send-to-lab or in-house production, with access to an unrivalled ecosystem

“We are digitizing all our models and closing our storage rooms: saving us money, manpower, and the time it takes to maintain a physical storage system.”

**Dr. Carlo Marassi, Orthodontist,**  
Rio De Janeiro, Brazil

# Clear aligners and indirect bonding

Choose send-to-lab, treatment providers, or in-house production

## Start today

**Clear Aligners**  
Easy creation of virtual setups and horse shoe models for clear aligner production.  
Learn more at: [3shape.com/clear-aligners](https://3shape.com/clear-aligners)

**Indirect Bonding**  
Accurate bracket placement with original bracket libraries.  
Learn more at: [3shape.com/indirect-bonding](https://3shape.com/indirect-bonding)

“The single best investment I ever made for my practice.”

**Dr. Ron Kampas, Kampas Orthodontics,**  
Mars, USA

# Grow *your* practice

Make your first step into digital orthodontics simple with the 3Shape TRIOS® intraoral scanner and digital models.

When you are ready to dive deeper, 3Shape orthodontic software guides you with easy, step-by-step intuitive workflows.

1

## Digitize your patient

Merge TRIOS, 2D pictures and CBCT scans to make complete digital recordings, and integrate with PMS software.

2

## Simulate & monitor treatment

Share treatment simulations with patient to advance treatment acceptance, visualize treatment progress, and engage patients.

3

## Diagnose patient

Base your clinical decision on digital accuracy with easy analysis of arc shapes, overjet/overbite, Bolton ratios, occlusion and spaces.

4

## Plan treatment

Create treatment proposals and share treatment plans with your lab, treatment provider or outsourced design service.

5

## Design and produce appliances

Power your practice through same-day start of orthodontic treatments with in-house manufacturing for indirect bonding and clear aligners.

Give a great treatment experience  
**Excite patients**  
 and advance case  
 acceptance

The new 3Shape TRIOS® MOVE is the ultimate patient/orthodontist communication tool.

Show patients their digital scans and dynamic treatment information close-up, and create greater opportunities for treatment dialogue and joint decision-making.

The ergonomic and lightweight design of TRIOS MOVE allows you to always position the screen in the right place, and enjoy superior user experience.

## A fit for every practice

# About 3Shape

3Shape is changing dentistry together with dental professionals across the world by developing innovations that provide superior dental care for patients. Our portfolio of 3D scanners and CAD/CAM software solutions for the dental industry includes the multiple award-winning 3Shape TRIOS intraoral scanner, the upcoming 3Shape X1 CBCT scanner, and market leading scanning and design software solutions for dental labs.

Two graduate students founded 3Shape in Denmark's capital in the year 2000. Today, 3Shape has over 1,200 employees serving customers in over 100 countries from an ever-growing number of 3Shape offices around the world. 3Shape's products and innovations continue to challenge traditional methods, enabling dental professionals to treat more patients more effectively.

Let's change dentistry together
